COVID-19 EMERGENCY
Anti-Droplet Solutions

GreenFast *Stand Alone*
Anti-droplet distancing barrier

4 mm
Polycarbonate

FRAME COLOUR ●

Satech, who has been the leader in the design and manufacture of machinery Perimeter Protection for 20 years, is now presenting their solutions for the efficient separation and Covid-19-related anti-contagion distancing for industrial environments and common company spaces.

FRAME
30 mm

Practical, light-weight, easy to handle.

A barrier with a height from the ground of more than **2000 mm**, ideal for personal distancing and the delimitation of common and production areas.

The panel - made of framed steel and **4 mm** fire resistant polycarbonate - is combined with a patented practical quick fastening system using the self-supporting base from our Green**Fast** Perimeter Protection system for machinery.

Practical and light-weight, the Green**Fast** *Stand Alone* barrier is fitted with a widened base for greater stability.
It is also available in **a wheeled version** that allows the simple repositioning of the barrier to suit your separation needs.
